REFLECTOSAFE IS THE PIONEER IN REFLECTIVITY SOLUTIONS

A pioneer in the business of Reflective Materials since 2003, Reflectosafe has achieved many milestones in the implementation of these materials in number of innovative ways.

Our customers are the foundation of our business and the reason we exist. The safety of personnel in a work environment is of paramount importance. There are times when health and safety professionals find it challenging to convince workers to wear protective gear for their safety.

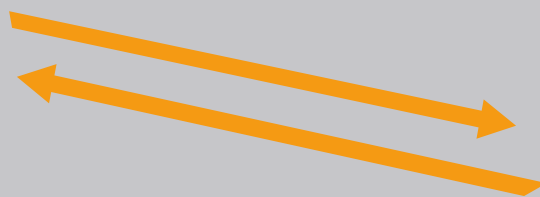

Reflective clothing is the key to providing protection against accidents caused by low visibility conditions such as rain, fog, smoke, dust and dim light. Reflectosafe has safety solutions that cater to workplace needs across industry verticals.

It is important to comply with safety standards without compromising on comfort, style and looks. This is where Reflectosafe comes in - Through our dedication and quality focus, we have established ourselves as a leading provider of Reflective Solutions for Reflective Safety Clothing in the world.

Reflectosafe has revolutionized the way the Indian Industry views Safety Industrial Wear & is setting new standards in performance work wear.

WHY REFLECTIVES?

RETRO-REFLECTION TECHNOLOGY

REFLECTIVE MATERIALS WITH 2 DIFFERENT TECHNOLOGIES
IN OUR RETRO-REFLECTIVE RANGE

GLASS BEAD TECHNOLOGY

This technology utilises millions of high performance glass beads that reflect light effectively in all directions due to their spherical nature.

Features & Benefits:

- Highly Reflective
- High Durability
- Extensive Flame Resistant products available
- Range of Products: Sew-on and Heat Laminate
- Industrial Wash Products available
- Flexible, Fabric-like feel makes it very comfortable to wear and provides freedom of movement, easy storage and folding

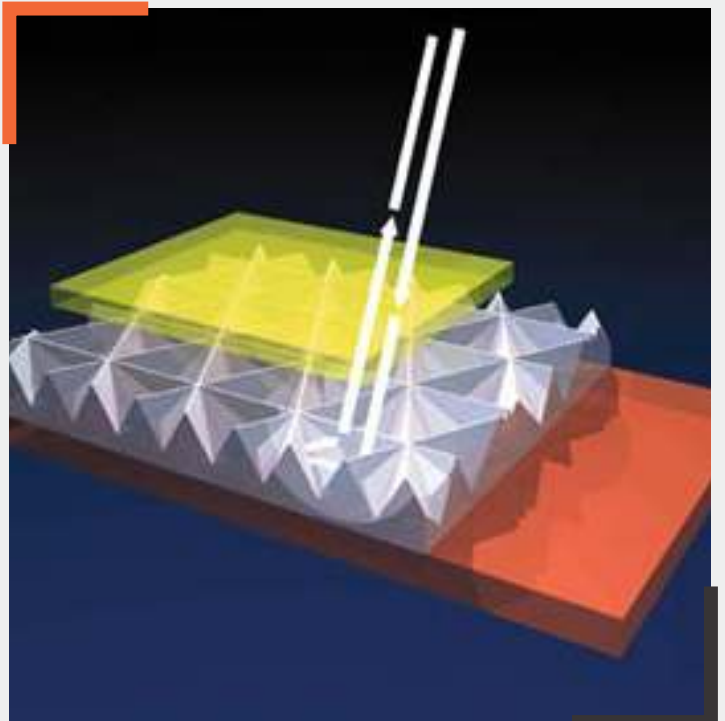

MICROPRISMATIC TECHNOLOGY

Microprismatic Technology incorporates retro-reflective microscopic prisms formed on a polymeric film to create a bright reflective appearance on garments and accessories.

Features & Benefits:

- Highly Reflective
- High Durability
- Higher Water Resistance & Performance in all Weather
- Attractive, High-Gloss Finish
- Can be Sewn or Welded onto garments (not suitable where static electricity is an issue, eg. Coal Mining)

STANDARDS WE MEET & TESTS

At Reflectosafe, we adhere to two of the most important standard specifications for safety products in India.

ISO 20471:2013

A European Standard for high visibility clothing, it deals with High Visibility Specifications. We test our materials and we meet these standards.

IS 15809:2017

Reflectosafe complies with Indian Standard for high visibility clothing.

First company in India to have its in-house Laboratory to test EN471 Specifications for High Visibility Reflective Wear.

PRODUCT TESTING

The **Reflective Tapes** such as **3M Scotchlite tapes** are thoroughly tested in our in-house lab for a number of parameters like abrasion, pilling, flexibility, tensile strength, temperature variation, washing cycle and impact of rainfall and spatter on reflectivity.

- **Comprehensive testing** of products to ensure best-in-class quality
- **Quality checks to ensure** visibility under different working and climatic conditions
